

# Container

## Known Issues:

To prevent unpredictable behavior **remove the connection of all issues in all relevant Containers**, before performing one of the following adjustments:

- Deleting a Container issue
- Moving a Container issue to a non-Container issue
- Removing an issue type from the "Treat issue types as Container" list

---

VERSION 3.2

Use different issuetypes as container.

- Container Clicker
- [Container in Container](#)
- [Container Issuelist](#)

# Status Category - Master Epic

Filter:

All
